EDUCATION

B.A programme(economics+mathematics) Rajdhani College, Delhi University

08/2019 - 06/2022

PERSONAL PROJECTS

Sorting Algorithm Visualizer

- the **Sorting Algorithm Visualizer** is a project which is used to visualize the sorting algorithms and performs the operation of algorithms step by step as the algorithm works like **bubble Sort**, **Insertion Sort** etc.
- <https://gist.github.com/Vidhimittal04/654df5183425c7da5e3739610dbf9fd2>

Text Editor

- In this project I have used several kinds of Python feature such as Tkinter. There are several kinds of functions available in this text editor like we can make our text bold, italic, normal and colourful. I have used several kinds of icons for better navigation, which is very useful for the user. This text editor is helpful for beginners who want to learn the typing. It is very friendly for the new users. Basic tasks like cursor, line number File handling to manage the text files. Different icons for cut, copy, info, find_text, new file, open file.

FRONTEND PROJECTS

- Survey Form
- Tribute Page
- Product Landing Page
- Netflix Clone
- News Today (A news app made using react that showcase real time news.)
